PROJECT

Introduction

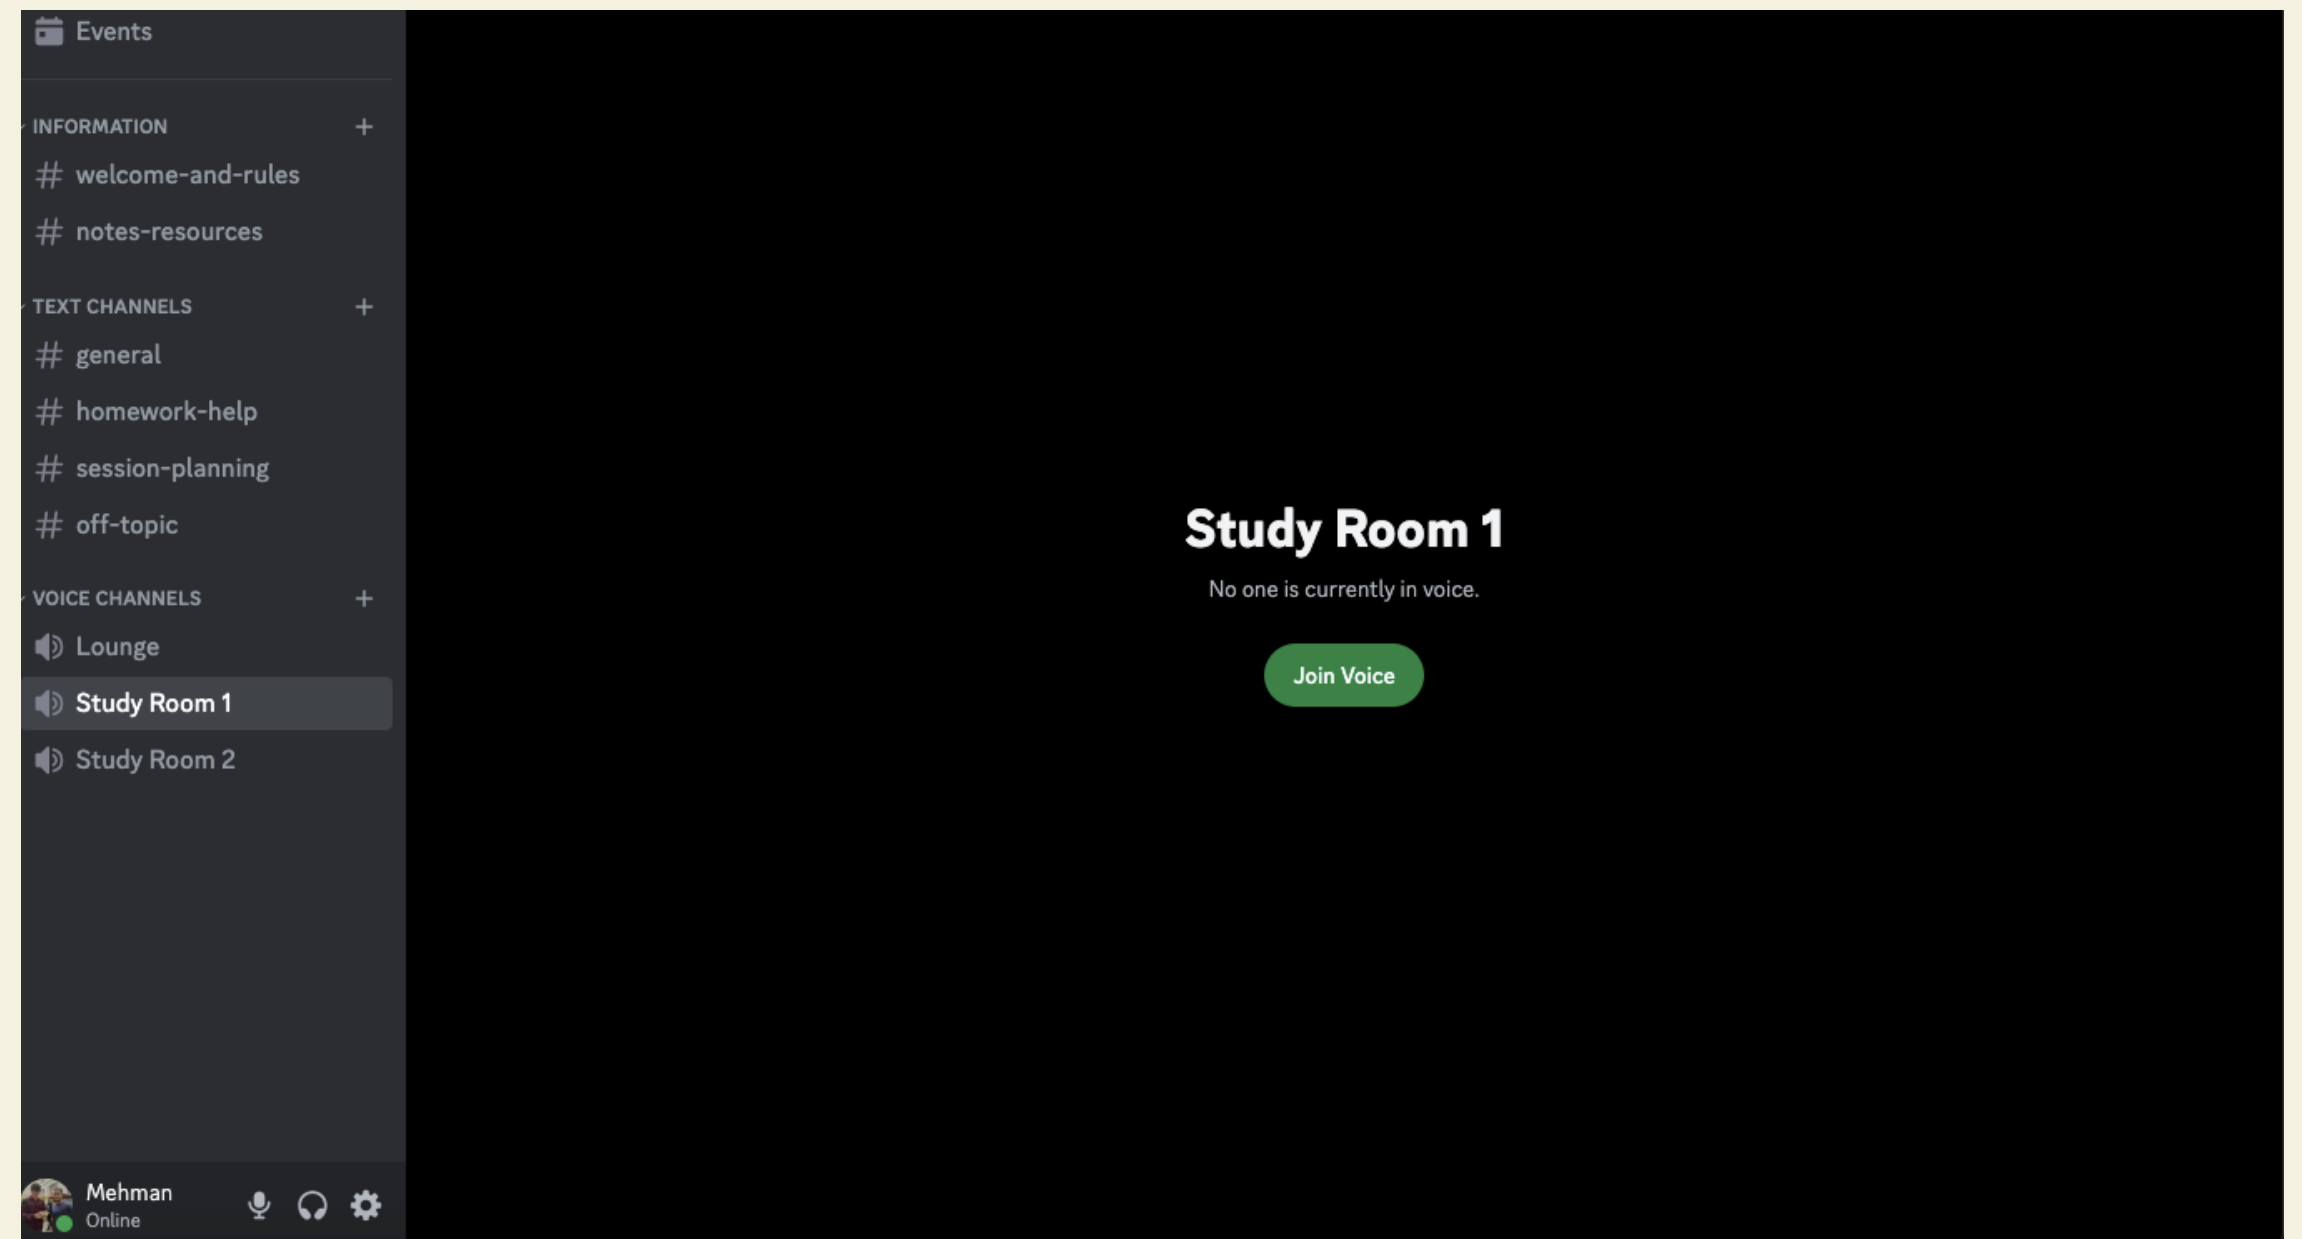

Throughout the duration of the project, I assumed the role of the team lead, overseeing the overall progress and ensuring effective collaboration among team members. My contributions primarily focused on project management, including task allocation, scheduling, and coordination and i did this by using Trello.

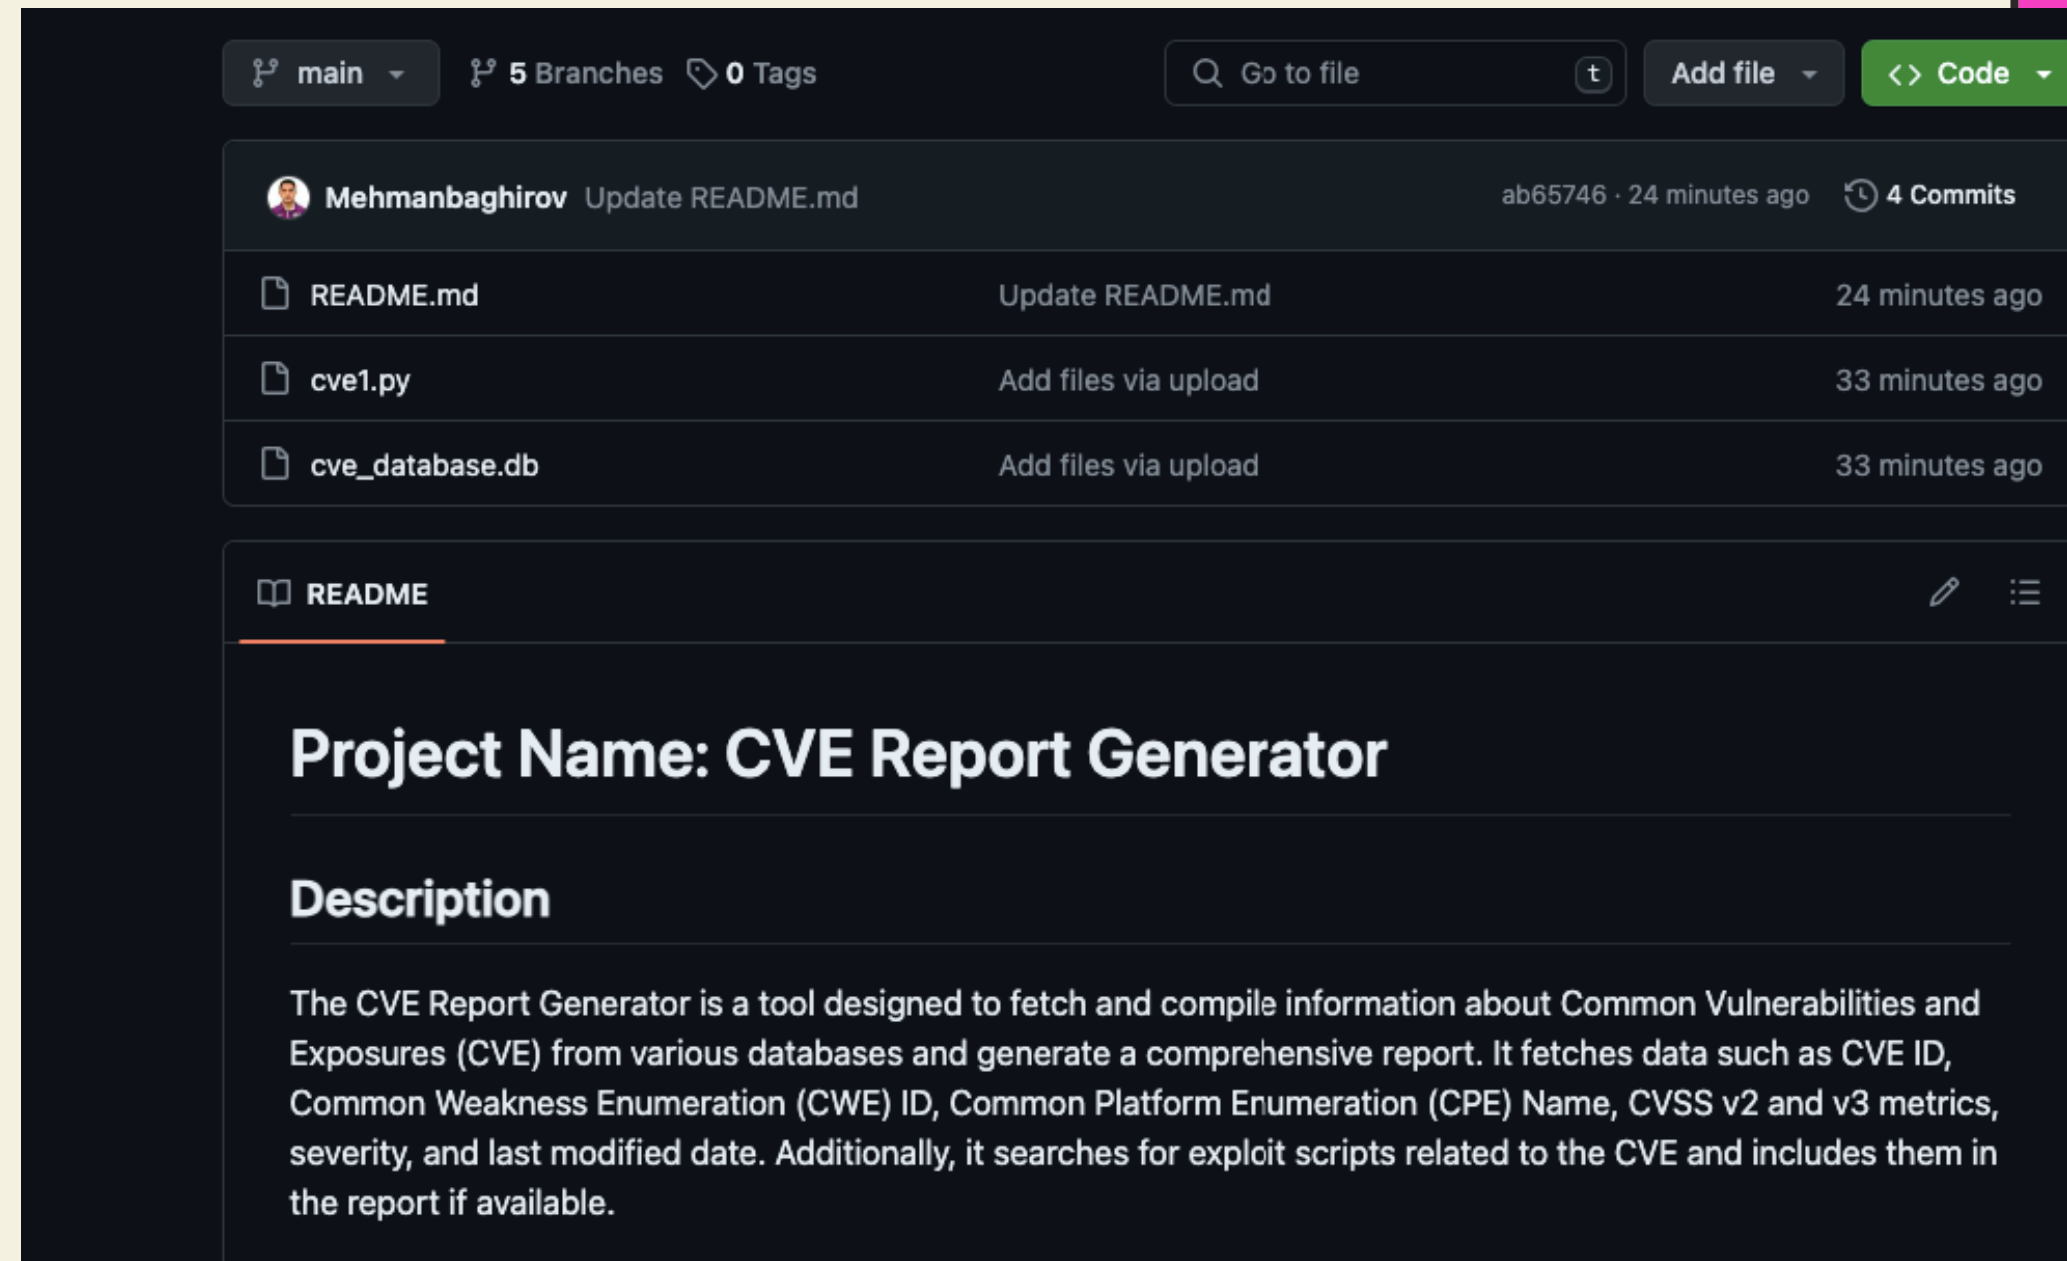

Communication

Communications play a crucial role in the team environment and so I have created Discord channel and organize gathering to checking and helping to my team members when they need.

Github

By using Github all of the member pushing their code to the specific branch and at the end i merged them in the main and doing QA Testing for the final format of the file.

Conclusion

Collaborating with my team has been a rewarding experience, and I am proud of the cohesive effort we put into delivering a high-quality project. Each team member's unique strengths and contributions were instrumental in achieving our goals, and I am grateful for the opportunity to work with such talented individuals.
